Dear Sirs:

I would like to submit the revised manuscript, entitled “Architecturally Truly Diverse Systems: A Review,” for consideration to be included in the special issue on Heterogeneous Computation in Specific Domain Accelerations (HC-SDA) of the Future Generation Computer Systems journal.

It has been revised based upon the excellent suggestions of the reviewers, and the articulation of what changes have been made is available in the file RevisionComments.docx.

Thank you for your consideration of this manuscript.

Sincerely,

Roger Chamberlain  
Professor of Computer Science and Engineering
